

Grade Mark Reader

Grade reading tool for handwritten grade, trim and sort marks

Customer Benefits

- ✓ Deciphers symbols and commonly used lumber grade marks. Simplified for fast, clear marking, and accurate interpretation
- ✓ Simple installation and high-speed processing allows for short-coupled retrofits in most operations
- ✓ Delivers accurate readings for at least 99.7% of all boards at any line speed
- ✓ Configurable to read multiple symbols at the same time
- ✓ Parameters are readily changed on-site using the personal computer user-friendly menu system

Species

✓ Hardwood

✓ Softwood

Feeding

✓ Transverse

Purpose of scanning

✓ Quality

Technology

✓ Long lasting LED Bulbs

✓ Windows Operating System

✓ Advancements to GMR Software

Technical Data

✓ Solution time of less than 6 milliseconds

✓ Operates from -5 C (23 F) and +50 C (122 F) and between 20% and 90% humidity

World leading wood scanning solutions
